Real-time Information

It's one thing to be able to set up your cards the way you want, but what enables the Fleet2GO platform to help you manage at a whole new level is the information it provides. The platform gives you the information that can inform decisions, help manage costs, and enables you to manage your fleet in a whole new way that will deliver bottom line results - in real time.

Driving You
FORWARD

ONE CARD DOES IT *All*

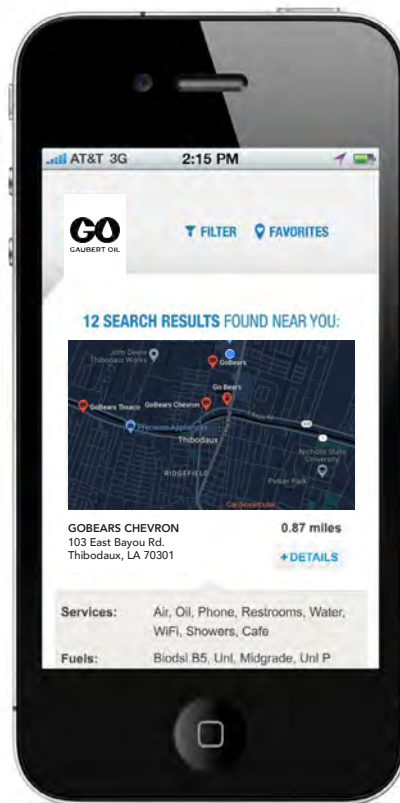

Managing your fleet depends upon getting your drivers where they need to go, managing costs, and having the information you need to make decisions. **We give you all three in one easy-to-manage platform.**

Location, Location, Location

Getting your drivers where they need to go depends upon have fueling locations where you need them. The CFN FleetWide card provides access to over 57,000 fueling locations throughout the United States and Canada. Included in the network are CFN cardlocks located throughout the country that provide 24/7 unattended fueling access, making fueling fast and convenient. Many locations are conveniently located near major highways and have easy entrance and exit for large trucks.

Convenience

The Fuelman network is also a part of the CFN FleetWide platform. With Fuelman, your fleet is never far from a location that gets your fleet back on the road. And, for those who need the convenience and amenities of truck stops, the CFN FleetWide platform includes some of the best know branded truck stops including Pilot Travel Centers, Flying J and Love's Travel Stops.

We know how important finding a fueling location is when you must have fuel or when you are planning a route. That's why we have developed industry-leading tools to help you find the right locations. Whether through our robust site locator functionality on www.gaubertoil.com or our new iPhone or Android app, your drivers will find the best location for their needs.

Effective Cost Management

Managing the cost of your fleet is more than just getting a competitive price for your fuel all on one consolidated invoice – which you will get from the CFN FleetWide platform. It is also having the controls to make sure you are only paying for fuel that is needed for your business purposes. That why our controls can be set up for your individual drivers, departments, or your entire fleet. Each card can have the following controls:

- Per day transaction limits
- Gallon limits per transaction
- Time of day & day of week controls
- Product type control at all cardlock locations
- E-Receipt, tracking and email verification of fuel purchases
- Exception reporting

And if you need to make a change like cutting off access to a card, turning it back on, or changing the product type restriction it can be done online, in real-time.
